

5015

5015-GU

The 5015 is a circular, flat fixture ideal for outdoor use. The fixture is stylish without being overwhelming. The size is very compact and easy to fit in any location. The aluminum housing with black powder coating helps maintain the durability of the fixture, and its acrylic lens evens out the light to reduce glare. The fixture itself is installation friendly and the GU24 energy-saving bulb is easy to replace. The 5015 is FCC certified, UL listed and Energy Star certified.
