

# High Bay

## High Bay

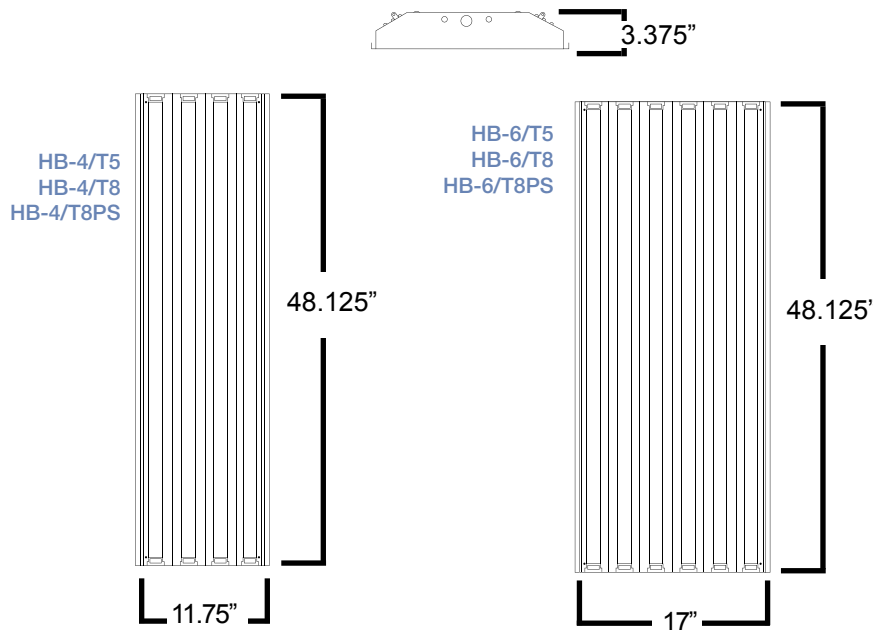

The Linear Fluorescent High Bay is an ideal lighting source for warehouses, retail spaces or any other industrial or commercial application. This High Bay boasts 95% reflection with Vega-95 aluminum for maximum efficiency. The heavy gauge steel body and iron phosphate pretreatment ensures durability and prevents rusting. Installation and removal are easy, and can be achieved without the use of any tools. The High Bay is equipped with 4 or 6 lamps that can each be removed individually. Our High Bay are UL listed and ETL certified.
