

LBT8

LBT8

The LBT8 fixture is one of the newest additions to our industrial line. This fixture can be used in multiple industrial settings, or any indoor space with high ceilings and open floor plans. The LBT8 features a reflector that provides a maximum light output to illuminate any applied space beautifully. The fixture has the option to be mounted on the ceiling, or to be suspended from the ceiling for maximum illumination of a single spot. This fixture is lightweight and easy to install. Our LBT8 can be ordered with the option of three (3), four (4), six (6), or eight (8) total lamps to suit your lighting needs. Our LBT8 comes with a white reflector. The LBT8 is UL listed and ETL certified.
