

TROT8/BASKET

TROT8/BASKET

TROT8 BASKET is our Direct/Indirect Troffer that provides visual comfort. This fixture is the best solution when it comes to evening out the light source in any commercial space. This fixture is offered in two feet (2") and 4 feet (4") options, allowing the fixture to fit any regular ceiling tile perfectly. The TROT8 BASKET is constructed from durable steel and includes an energy efficient ballast. Installation is quick and easy, and can be done without the use of any special tools. The TROT8 BASKET is ETL listed and FCC certified.
