

TROT8/LOUVER

TROT8/LOUVER

The TROT8 LOUVER is our Direct/Indirect Louver Troffer that provides visual comfort while adding a modern look to any work space. This fixture is the best option in evening out a light source throughout the work space. The louvers are used for direct lighting situations, but also help reduce the visibility of the lamps. The TROT8 LOUVER is available in two feet and four feet varieties. The option of equipping either two or three lamps is also offered. Each lamp can be easily installed and removed individually. The TROT8 LOUVER is ETL listed and FCC certified.
